

HEALTHCARE MEMBERSHIPS

Healthcare reimagined. Proactive. Personalized. Longevity-driven.

At Performance Medicine, we offer concierge-style healthcare packages designed for adults who want more than traditional primary care. Our memberships combine medical care, advanced diagnostics, hormone optimization, recovery, nutrition, and longevity strategy—all under one roof.

Whether your goal is prevention, performance, or long-term vitality, there's a level of care built for you.

*** If you are not local to our clinic (San Antonio and surrounding areas) you get \$200 off the package price listed since you will have limited utility of in person benefits (IV infusions, body composition scan, etc)

Treat now, pay later with Cherry.

All Performance Medicine care and services can be financed through Cherry, with **payment plans** that are designed to go at your pace. When securing your membership or booking an appointment or service, ask us how you can get started with Cherry!

Precision Membership Level

Elevated, proactive medical care with **priority access** and personalized health oversight.
